On page 1105, the *P* values in the second to last sentence of the results section in the abstract were incorrectly reported for the article by Meng NH, Lo SF, Chou LW, Yang PY, Chang CH, Chou EC. Incomplete bladder emptying in patients with stroke: is detrusor external sphincter dyssynergia a potential cause? Arch Phys Med Rehabil 2010;91:1105-9. The sentence should read: The presence of DESD was associated with a longer onset-to-evaluation interval ($P=.018$) and spasticity of the stroke-affected lower limb ($P=.02$).
