In the article “Timed 360°/C14 Turn Test for Assessing People With Chronic Stroke” (Shiu et al, Arch Phys Med Rehabil 2016;97:536-44), the sentence in the abstract that reads Participants: Individuals with chronic stroke (n = 72) and healthy individuals (n = 35) of similar age (N = 107).

Should read:

Participants: Individuals with chronic stroke (n = 37) and healthy individuals (n = 35) of similar age (N = 72).
