**CORRECTION****Correction**

In the article, “Are There Interindividual Differences in Anxiety as a Result of Aerobic Exercise Training in Adults With Fibromyalgia? An Ancillary Meta-analysis of Randomized Controlled Trials” ([https://www.archives-pmr.org/article/S0003-9993\(22\)00007-7/fulltext](https://www.archives-pmr.org/article/S0003-9993(22)00007-7/fulltext)), the 95% confidence interval in the second sentence of the Data Synthesis section of the abstract should be “ $-1.25$  to  $-0.29$ ”. Also, in the first row of Table 1, the 95% confidence interval likewise should be “ $-1.25$  to  $-0.29$ ”.

The article has been updated online to reflect this change.
